

TC9: Wireless Power Transfer Systems
Committee Meeting

Meeting Minutes

Meeting Date: January 26, 2021, US Eastern Time

Time: 3:00pm-4:00pm, every month starting from Oct. 6, 2020

Meeting Zoom ID: <https://drexel.zoom.us/j/89756113057>

January 26, 2021 Attendees: Chris Mi, Grant Covic, Paul Mitcheson, Fei Lu

1. Prof. Mi mentioned two things we need to do in the next stage.
 - a. When and how to process a large range TC meeting to include more people.
 - b. Plan activities for the following year, such as seminars and special issues.
2. Prof. Covic suggested key goals of the TC.
 - a. IEEE small project on wireless power, such as a website to include the history and developments.
 - b. Agree to run seminars and IEEE Talks.
3. Prof. Mi suggested to include both academic and industry people in the seminars. We can send the information and abstract to PELS for advertisement 2-3 months before the seminar.
4. Prof. Mitcheson agreed that the seminars can cover both technical and industry talks. Also, the MTT side can be included in the future activities.
5. Prof. Covic could be a candidate for the first seminar speaker. It is also possible to have a joint speaker together. The first seminar can be in April, which is 3 months from now.
6. Discuss the plan for WPW. It is better to postpone to next year to maintain face-to-face conference.
